

The Intel logo is displayed in white text on a blue square background. The background image of the top section shows a person's hand interacting with a tablet mounted on a stand in a retail setting, with coffee cups and a server visible in the background.

Solution Overview

The DN Series® BEETLE A2110 is a scalable, modular, and versatile all-in-one POS system designed for efficiency and adaptability. Powered by Intel® Alder Lake and Raptor Lake processors (Celeron to Core 5), it offers fanless and fan-based options, up to 32GB DDR5 RAM, and supports up to three displays. Features include customizable peripherals (e.g., NFC, fingerprint reader), IP54 front panel, and integrated wireless LAN. Its ergonomic design ensures optimal user experience with anti-glare 15.6" Full-HD touchscreens and silent SSD operation. The service-friendly, remotely manageable system supports multiple OS options and mounts on counters, poles, or walls.
